

Work smarter by letting your tractor work harder.

The new and improved SA325 is the ideal subcompact tractor choice for versatility and flexibility. Use more implements and accessories than ever before, with the comfort of an operator's platform that was designed with you in mind. Every instrument and control is at your fingertips, so you can enjoy the power and precision of Yanmar's famously reliable three-cylinder, liquid-cooled diesel engine and our unique combination of horsepower and fuel efficiency.

Standard dual rear remote valve and 12V outlet so you can enjoy the use of more accessories than ever, including those using hydraulic power.

INNOVATIVE DESIGN AND TECHNOLOGY

UNRIVALED VERSATILITY.

With increased power comes increased versatility. You'll be able to utilize a wide range of implements that will allow you to get the most out of what your property has to offer. Lift more. Dig deeper. Cut faster. No matter what the task at hand, this tractor will allow you to select an implement that will get the job done quickly, and with ease.

IMPROVED PRODUCTIVITY.

The 325 is equipped with two side-by-side hydrostatic transmission pedals that allow you to switch seamlessly between forward and reverse. You'll notice that jobs, particularly those in tight spaces, get taken care of easily. This unique pedal design improves overall ease of operation, allowing you to get more done with less effort.

A SMOOTHER RIDE.

This tractor is also equipped with a full frame chassis. This means that while you're tackling your property to-do list, you'll be doing it on a tractor that operates quietly, with less vibration. Plus, it's a design that's rugged enough to last a lifetime.
