## YANMAR

# Turn acres of grass into well-groomed acres of lawn.

There's nothing more rewarding than a lawn that's finely groomed like a country club fairway. Especially when it doesn't take all day to make it look that way. That's why our finish mowers are engineered for speed, precision and enduring quality. The innovative rounded-front, tapered-side, rear-discharge deck allows you to reduce trim and mow with better maneuverability. And the heat-treated, alloy steel blades always give you a beautiful, high-precision cut on any type of grass.

YFM54 shown with optional chain shielding\*

\*All YFM Series finish mower models pass all applicable safety standards for thrown object and blade contact without chain shielding. However, if these units will be used in areas where the possibility of thrown objects could be hazardous to persons or property, it is strongly recommended that optional chain shielding be used for extra protection.

### **INNOVATIVE DESIGN AND TECHNOLOGY**

**ROUNDED FRONT CORNERS** and tapered deck sides improve maneuverability and grass discharge.

**BOX-STYLE CONSTRUCTION** for superior deck strength.

STANDARD DUTY REAR-MOUNT

## FEATURES

Deep 4.6-inch deck, baffling and unique rear discharge design ensures exceptional material distribution

Spring-loaded idler arms automatically maintain the correct tension on our custom-made belts

Tubular caster arms and heavy, tall deck rail supports (4.5-inches) for increased strength and durability
