

RBSD620 FOUR-IN-ONE

**ROTARY
TILLER;
BED SHAPER;
APPLY PLASTIC
OR PAPER
MULCH; APPLY
DRIP TUBE
IRRIGATION**

FEATURES

NEW! Install two irrigation drip tubes or drip tapes simultaneously

Till, raise and shape bed, lay mulch, and lay drip tube(s) all in one pass

Attach or detach the tiller from the bed shaper in seconds.

Do it all... at once.

The Yanmar Model RBSD620 Bed Shaper is much, much more than just a bed shaper. It's as versatile and effective as any bed shaper for compact and sub-compact tractors in the North American market. Compact and efficient enough to pair with tractors under 30 horsepower like the Yanmar Model 424, the Yanmar Bed Shaper is an excellent match for the Yanmar Model YT235 (34 HP) and is also suitable to use with the Yanmar Model YT347 tractor (46 HP).

FOUR-IN-ONE

BIG NEWS: DRIP... AND... DRIP. TOGETHER.

- The 2017 Yanmar Bed Shaper: Capable of installing two irrigation drip tubes or drip tapes simultaneously.
- Apply plastic or paper mulch; apply drip tube irrigation in one pass

ROTARY TILLER CAN BE SEPARATED FROM BED SHAPER / MULCH LAYER

- Attach or detach the tiller from the bed shaper in seconds. Just pull two pins and lower the hydraulic 3-point link arms.

FOUR-IN-ONE PLANTING TOOL KIT FOR COMPACT TRACTORS
